**LIMITED WARRANTY**

Monty's warrants that this product meets its manufacturing specifications. If it does not, Monty's will, at its option, replace the product or refund the purchase price. In no event shall Monty's be liable for special, incidental or consequential damages or for damages in the nature of penalties. Monty's shall not be liable in any way for claims resulting from any use of this product which is not in strict accordance with all directions, cautions and warnings on the label or labels.

**DO NOT APPLY NEAR WATER, STORM DRAINS, OR DRAINAGE DITCHES. DO NOT APPLY IF HEAVY RAIN IS EXPECTED. APPLY THIS PRODUCT ONLY TO YOUR LAWN/GARDEN AND SWEEP ANY PRODUCT THAT LANDS ON THE DRIVEWAY, SIDEWALK, OR STREET, BACK ONTO YOUR LAWN/GARDEN.**

**PRODUCT USE**

TurfVantage Premium Root & Bloom contains N-P-K, Iron and Zinc and can be used at planting through maturation. Can be used on all trees, shrubs, flowers, lawns, in greenhouses, hydroponic systems, and on field grown ornamental crops – when root development, flower production, or low top-growth is desired. Can root or foliar feed with hand held, backpack and other tank sprayers. May also be applied through irrigation systems. Can be added to any TurfVantage product for additional plant and root vigor.

**New Sod Application:**

After laying sod, apply 1-2 ounces in a minimum of 1.5 gallons of water per 1,000 sq. ft.

**Turf Applications:**

- Greens and Tees: apply 1-2 ounces in a minimum of 1.5 gallons of water per 1,000 sq. ft. Apply monthly or when turf is under stress during the growing season.
- Fairways, lawns, athletic fields and other Turf areas: apply 1-2 ounces in a minimum of 1.5 gallons of water per 1,000 sq. ft. Apply monthly during the growing season.

**Ornamental Foliar & Soil Applications:**

Premium Root & Bloom can be applied with hand held, backpack or tank sprayers. Mix 1-2 ounces in a minimum of 1.5 gallons of water per 1,000 sq. ft. For best results, foliar apply. May be applied to soil inside the drip line of the plant. When applying through overhead or drip line irrigation with an injector, add 1 to 2 ounces per gallon of water in your holding tank and set injector at 1:100 ratio. Apply once/month during growing season as a maintenance application, or as often as desired.

**Per Acre Applications:**

Premium Root & Bloom should be applied at 1 to 2 pints per acre, in a minimum of 15 gallons of water per acre.

**USE OF MONTY'S TURF & ORNAMENTAL PRODUCTS**

Products are recommended as a supplement to your current fertilizer program. They are best applied to the seed or plant directly. We suggest taking a soil test and have a qualified independent lab analyze the samples to determine nutrient levels in your soils and then follow recommended applications to ensure proper nutritional levels.

Monty's Turf & Ornamental products are compatible with most chemicals. When tank mixing any Monty's products with other chemicals, Monty's suggests administering a jar test and/or a strip test before adding Monty's to your tank mix. When mixing with other chemicals, it is suggested to tank mix Monty's only after diluting the chemical according to label directions. Once mixed or diluted, product should be used within 48 hours. Please call 800-978-6342 with any questions.

**STORAGE AND HANDLING**

Do not allow the product to freeze. Keep container closed when not in use. This product contains organic materials which may settle and should be shaken or stirred if stored. Refer to the MSDS for other safety and handling information.
