

Turf Vantage®

Turf Power SRN™

13-2-6 WITH MICRONUTRIENTS AND HUMICS

This product includes Slow-Release Nitrogen and other important nutrients and activated humics – not typically found in conventional fertilizers.

- Can be used on all varieties of cool, transitional, and warm season turf in all growth phases
- Provides extended plant nutrition for controlled growth
- Slow release allows more balanced long-term benefits
- Works on trees, shrubs, and transplants
- Industry-leading activated humic technology

Net Contents - 2.5 US Gal (9.46 liters)
Net Weight - 28 lbs (12.7 kg)

GUARANTEED ANALYSIS

Total Nitrogen (N)	13%
6.5% Ammoniacal Nitrogen	
6.5% Urea Nitrogen*	
Available Phosphate (P ₂ O ₅)	2%
Soluble Potash (K ₂ O)	6%
Sulfur (S)	1%
1% Combined Sulfur	
Iron (Fe)	0.15%
0.15% chelated Iron (Fe)	
Manganese (Mn)	0.25%
0.25% chelated Manganese (Mn)	
Zinc (Zn)	0.1%
0.10% chelated Zinc (Zn)	

*6.5% Slowly available Urea Nitrogen from Urea-Triazone.

Derived from: Ammonium Thiosulfate, Urea-Triazone, Dipotassium Phosphate, Potassium Acetate, Iron EDDHSA, Manganese EDTA and Zinc EDTA.

Also contains non-plant food ingredients:

Humic Acid (derived from brown coal) 0.75%

LIMITED WARRANTY

Monty's warrants that this product meets its manufacturing specifications. If it does not, Monty's will, at its option, replace the product or refund the purchase price. In no event shall Monty's be liable for special, incidental or consequential damages or for damages in the nature of penalties. Monty's shall not be liable in any way for claims resulting from any use of this product which is not in strict accordance with all directions, cautions and warnings on the label or labels.

PRODUCT USE

TurfVantage Turf Power SRN can be used on all varieties of cool, transitional, and warm-season grasses. This NPK solution is enhanced with a blend of micronutrients and humic acid that are not found in conventional fertilizers. Turf Power SRN has been formulated with humic acid to stabilize, or buffer, nitrogen. It can be used in low water volume spray applications without injuring young turf grasses. Turf Power SRN provides plant nutrition to support balanced growth.

General: Turf Power SRN is compatible with most herbicides and pesticides but should be jar tested prior to mixing in the tank. Do not mix concentrated components together prior to mixing with the appropriate amount of water.

Greens & Tees: Apply 4 to 6 oz of Turf Power SRN per 1,000 ft² every 1 to 2 weeks in at least 2 gallons of tank mix. Turf Power SRN will help to limit excess growth and thatch buildup

Fairways: Apply 10 to 15 oz of Turf Power SRN per 1,000 ft² every 4 weeks in at least 2 gallons of tank mix.

Lawns: Apply 10 to 15 oz of Turf Power SRN every 4 weeks during the growing season in at least 2 gallons of tank mix.

Trees, Shrubs, Ornamentals: Can be applied in a uniform drenching pattern under the canopy or dripline or injection. For soil drench use up to 96 oz Turf Power SRN in 75 gallons of water to cover 1,000 ft². For smaller applications mix 1.25 oz Turf Power SRN per gallon of water and apply from the trunk to just outside the canopy. For injection mix 1 oz per gallon of water and apply 5 gallons of finished mix per inch of trunk diameter (measure diameter of trunk 54" from ground level).

USE OF MONTY'S TURF & ORNAMENTAL PRODUCTS

They are best applied to the plant directly. We suggest taking a soil test and have a qualified independent lab analyze the samples to determine nutrient levels in your soils and then follow recommended applications to ensure proper nutritional levels.

Monty's Turf & Ornamental products are compatible with most chemicals. When tank mixing any Monty's products with other chemicals, Monty's suggests administering a jar test and/or a strip test before adding Monty's to your tank mix. When mixing with other chemicals, tank mix Monty's only after diluting the chemical according to label directions. Once mixed or diluted, product should be used within 48 hours. Please call 800-978-6342 with any questions.

STORAGE AND HANDLING

Do not allow the product to freeze. This product will freeze at or below 32 degrees. Keep container closed when not in use. This product contains organic materials which may settle and should be shaken or stirred if stored. Refer to the SDS for other safety and handling information.

Do not apply near water, storm drains, or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn/garden and sweep any product that lands on the driveway, sidewalk, or street, back onto your lawn/garden.
